Technical Skills

- **Web Technologies**: HTML, CSS, Bootstrap.
- **Frameworks:** Bootstrap
- **Back-End:** PHP, MySQL
- **Version Control:** Git, GitHub
- **Tools/Platforms**: VS Code, Linux

Experience

Enjay IT Solutions Ltd., Gujarat	**Jan 2024 – May 2024**
Web Developer Intern	*Gujarat, India*

- Web Developer with hands-on experience at Enjay IT Solutions Ltd., where I led the development of a Campus Recruitment System using HTML, CSS, Bootstrap, PHP, JavaScript, and MySQL.
- Skilled in creating responsive designs and solving technical challenges, with a strong focus on delivering exceptional user experiences.

Cognifyz Technologies	**Aug 2024 – Sep 2024**
Web Development Intern	*Maharashtra, Australia*

- Developed a professional landing page as a Web Development Intern using HTML, CSS, and JavaScript, ensuring a responsive and user-friendly design.
- Addressed technical challenges and applied modern web development practices to create a visually appealing and functional site across all devices.

Projects

Campus Recruitment System| *HTML, CSS, Bootstrap, PHP, JavaScript, MySQL*	**January 2024 – May 2024**

- Created an innovative Campus Recruitment System that modernizes how universities manage job postings and student recruitment.
- Simplified and enhanced the recruitment process, making it more efficient and effective for both universities and students.
- Created a platform for admins to easily manage job listings, select students, and schedule interviews from one interface.

Tic Tac Toe Game| *HTML, CSS, JavaScript*	**July 2024 – July 2024**

- Built a responsive web game with a dynamic game board and winner modal.
- Added functionality for players to reset the game and start a new game after winning.
- Implemented key features such as a user-friendly interface, dynamic game board, and a modal that displays the winner.
